## POLICY BRIEFING

Publication date: Monday, December 9  
Advertising deadline: Tuesday, December 3

In March 2022, Canada's 2030 Emissions Reduction Plan was announced, providing a roadmap for achieving 40-45 per cent emissions reductions below 2005 levels by 2030. How well is Canada doing in reaching its climate goals? What actions can be taken to help?

What are some of the major environmental issues affecting Canada, such as increased risk of wildfires, species loss, or water contamination? How can these issues be better addressed?

COP29, the annual conference of the parties that signed the United Nations Framework Convention on Climate Change, was held in Azerbaijan from Nov. 11-22. What is your takeaway from the conference?

What is Canada's readiness in terms of the transition to electric and zero emissions vehicles? How can the federal government support the transition?

What innovations in green technology are making a difference in terms of environmental protection? How can Canada take advantage of these innovations?
